

Quick Guide

Simple as 1, 2, 3

1

To turn on the hotspot, press the power button.

2

Check your device for available WiFi networks. Choose the **MCL Hotspot** or **Hotspot_#**

3

Enter the password to access the hotspot network on up to 10 devices. *Password label is on the inside of the container cover.*

Press and hold power button for 3 seconds (you will see any of the following to indicate the Hotspot is turning off: a) "Goodbye", b) green or blue lights turn off, or, c) as you release the power button all lights turn off. It may take several tries before the unit shuts down.
